TikTok: “ai food looks disgusting” discovery page

This file covers a single source in the Food + AI web archive, which collects material for an SVT Nyheter Helsingborg interview about AI-generated food images on restaurant menus. Text marked “written for this book” (visual descriptions, translations, summaries) was added during compilation and is not part of the original source.

This content is also available as separate files, one per source. Chapter numbers mentioned in the text refer to the full book, `food-ai-sourcebook.pdf`:

- `food-ai-intro.pdf`: Introduction, overview, source catalogue and glossary
- `food-ai-guardian.pdf`: The Guardian article (book chapter 2)
- `food-ai-cnn.pdf`: CNN article (book chapter 3)

TikTok discovery page: “ai food looks disgusting” (feed not retrievable)

Source	TikTok discovery page
Title	TikTok - Make Your Day
URL	https://www.tiktok.com/discover/ai-food-looks-disgusting
Kind	social discovery page
Archive status	page snapshot complete; feed media unavailable
Note	The linked discovery page requires client-side/API loading and returned no server-rendered result videos.

The linked page is TikTok’s search/discovery page for the phrase “ai food looks disgusting”, which shows that this complaint is common on the platform. The archived HTML contains only TikTok’s application shell and localisation data. The result videos load in the browser and were not present in the server response, so no TikTok videos are included here. CNN (chapter 3) reports that TikTok users coined the term “AI slop menus”, and that Adaeze Onejeme posted TikTok videos of an “AI flyer epidemic” at a Hollywood night market.
